PUBLIC NOTICE

The Town of Chilhowie would like to remind its water customers that removing shut-off locks and/or bypassing water meters could result in criminal charges for destruction of property or theft. The Town takes seriously our responsibility to provide reliable, clean, and safe water to our customers. This is not an easy task and proper operation of our water lines, valves, boxes, and meters are crucial to our ability to deliver water to over 2,300 homes. If you need assistance with, or questions about, your water meter or the Town's guidelines for cutoffs, please feel free to contact Chilhowie Town Hall at (276)646-3232. Thank you.
